

LITTLETON PARKWAY

EXHIBITION MANAGERS INFORMATION

Electrical Requirements – 1 x 13 amps supply

Physical Footprint – The layout is 7.3 m (24') long x 2.8 m (9' 3") deep is self supporting, but needs an additional 0.6 M (2') on all sides, giving a total area of 8.5 m x 4.0 m. The layout boards are heavy, especially the scenic ones and thus ground floor positions are preferred as difficulties can be caused by lifts and stairs. The Lighting Gantry is 2.4 m (8') high and needs an additional 1.25 m clearance above when putting up and taking down the layout

Operators – Six are required for a running session (If it is necessary to stay away, some 70 + miles from Stafford, 2 single rooms are needed plus 2 twin type please)

Transport – a long wheelbase Transit type van is required to move the layout plus two additional cars for the operators and stock . For Insurance purposes allow £15,000 because of the large amount of stock and buildings
