

Bishopston

Nick Palette

Bishopston portrays a terminus on a BR(W) secondary line in the 1960s.

Examples of the trains typical of the period are shown on the layout with a mixture of passenger and freight trains.

All locos and rolling stock come from the main UK manufacturers and everything on the layout, with the exception of some of the scenery, is available "off the shelf".

The layout is 13 ft long by 18 ins wide and is operated from the front.

Operation is by DCC.

Scale:	4mm/00
No of operators:	2/3
Region and time period:	BR(W), 1960s
Layout footprint:	15ft x 18 ins (operated from front)
